RÔMULO DA SILVA

Full-Stack Software Engineer with 8 years of experience in web development. Specialized in React, NodeJS, MongoDB and Express. Familiar with Java, PHP, Python and their frameworks. Passionate about creating innovative and high-quality solutions for customers.

💼 WORK EXPERIENCE

Feb 2021 - May 2023

Mid-Level Full-Stack Software Engineer
Circa Logica Group, remote

- Led a team of 5 frontend developers in creating responsive and interactive web applications using React, Angular, Vue.js, MongoDB, MySQL, GraphQl, Express, Java (Spring Boot + Hibernate) and NodeJS.
- Implemented good coding practices, automated testing and continuous integration.
- Collaborated with stakeholders, designers and backend developers to define the requirements, design and architecture of the applications.
- Solved complex problems of performance, security and usability.
- Contributed to the technical documentation and code review.

Sep 2018 - Feb 2021

Frontend Software Engineer
Solutions, remote

- Developed dynamic and scalable web applications using Angular, React, SCSS, jQuery, Tailwind CSS and Vue.js.
- Integrated RESTful APIs and third-party services such as Firebase, Stripe and Google Maps.
- Applied the principles of responsive design and web accessibility.
- Used tools such as Webpack, Babel and ESLint to optimize the code and improve the quality.
- Participated in daily Scrum meetings and two-week sprints.

Nov 2016 - Jul 2018

Junior Frontend Developer
LMN Digital, Rio de Janeiro, Brazil

- Created elegant and functional web interfaces using HTML, CSS and JavaScript.
- Used frameworks such as Bootstrap, jQuery and Angular to speed up development.
- Followed the specifications of the designers and the guidelines of the senior developers.
- Performed manual and automated tests to ensure code quality.
- Learned more about new technologies and tools such as React, Next, TypeScript and NodeJS.

Mar 2015 - Oct 2016

Freelance / Internship Frontend Developer
Various, Rio de Janeiro/Brazil

- Created and design responsive websites, web applications and WordPress configurations for various clients.
- Used technologies such as HTML, CSS, JavaScript, PHP and MySQL to meet the needs of customers.
- Communicated with customers to understand their goals, preferences and expectations.
- Delivered projects within the agreed deadline and budget.
- Kept websites updated and working properly.
- Participated in web development projects for non-profit social organizations or educational companies.
- Added relevant content, images and videos to websites.
- Ensured that websites are easy to navigate, attractive and informative.
- Received feedbacks and guidance from experienced developers or

compliments from organizations or companies for the work done.

EDUCATION AND QUALIFICATIONS

Aug 2011 - Jul 2015

Bachelor's Degree in Computer Science
UFRJ, Rio de Janeiro/Brazil

- Learned the fundamentals of computer engineering, such as algorithms, data structures, object-oriented programming, databases and networks.
- Developed practical projects using languages such as Java, C++, Python and SQL.
- Participated in extracurricular activities such as programming clubs and hackathon competitions.
- Obtained a final average of 18 values.
